

K-Love has been a great asset to listen to. It allows me to listen to the same fantastic programming now matter where I am in California. The increasing use of LPFM instead of repeaters will force excellent programming that is the same no matter which part of the US a person is in to go away.

Due to the family sensitive programming of K-LOVE, anyone in a family can listen at any time of the day or night.

Thank you for your time in reviewing this.
